Hazardous Waste Facility Fee Changes to Your Payments, Reporting Basis, and New Fee Rates Effective January 1, 2022

A new law increases the hazardous waste facility fee rates and makes major changes to the fee program ([Senate Bill 158](#); Stats. 2021, ch.73).

New reporting requirements

Your reporting basis will change from a calendar year basis to a fiscal year basis starting July 1, 2022. Below are your new reporting requirements:

- Continue to make your 2022 prepayment which is due by February 28, 2022.
- File an online return for the transitional period from January 1, 2022, through June 30, 2022. This six-month return is due by August 31, 2022.
- The fiscal year 2022/2023 return is due February 28, 2023.

New payment dates

Beginning July 1, 2022, you are required to pay your facility fee for each reporting period in two equal payments as noted below:

- The new prepayment due date is November 30, 2022 (and each subsequent fiscal year).
- The final payment and return due date is February 28, 2023 (and each subsequent fiscal year).

Online filing required

You must file your *Hazardous Waste Facility Fee Return* using our [Online Services](#) system. If you don't already have a username and password in our system, you will need to create one. For assistance with creating a username and password, and filing online, please view our [Tutorials](#).

Facilities may also owe the generation and handling fee

Previously, facilities that paid the facility fee were not subject to the generator fee. However, beginning January 1, 2022, facilities that generate five (5) or more tons of hazardous waste per site during a calendar year or portion of a calendar year, must also register, file a return, and pay the generation and handling fee. Use our [Online Services](#) system to register.

A permitted facility may deduct from the amount of hazardous waste subject to the generation and handling fee the amount of waste that is stored, bulked, or transferred from that facility to another authorized facility for management according to Health and Safety Code section [25205.5\(a\)\(4\)](#). For additional information about the generation and handling fee, please see our [special notice, Hazardous Waste Generation and Handling Fee Application of Fee, Payments, and New Rates Effective January 1, 2022](#).

Facility fee exemptions eliminated

Effective July 1, 2022, the following hazardous facilities are no longer exempt from the fee:

- Household hazardous waste collection facility,
- Local government-operated facility under an agreement with a public agency,
- Load checking program, and
- A facility used for public waste generated by another person.

New facility fee rates

The facility fee rates for the period January 1, 2022, through June 30, 2022 and fiscal year 2022/2023 are as follows:

Facility Fee	January 1 to June 30, 2022 Rates	July 1, 2022 to June 30, 2023 Rates
Base Rate	\$35,943	\$94,910
Full Permit		
Disposal (10 Times Base Rate)	\$359,430	\$949,100
Large Onsite Treatment (3 Times Base Rate)	\$107,829	\$284,730

Small 5 Years or More	\$3,050	\$14,375

For current and historical facility fee rates, see our [Facility Fee Rates](#) page on our website.

Your facility fee supports California

We collect the hazardous waste facility fee on behalf of the California Department of Toxic Substances Control (DTSC). This fee supports the protection of California’s communities and the environment from toxic contamination, and also helps DTSC promote the use of safer consumer products.
