

Instructions for Completing CDTFA-401-GS, State, Local, and District Sales and Use Tax Return

You Can Easily File Your Return Online

Online filing of a return is a more efficient method of filing your sales and use tax return. It is much easier than filing a paper return. When you file your return online with the California Department of Tax and Fee Administration (CDTFA), the system calculates tax due based on the sales and deduction information you enter. Online filing helps reduce errors by prompting you when items are missed. By ensuring the accuracy of your return you can avoid interest, overpayment, and penalties due to reporting incorrect information.

Once you have completed and transmitted your return to the CDTFA, the return is automatically posted to your account. By filing your return online you avoid additional costs for postage or having your return lost in the mail.

You can also file your return early and set a future date to make your payment as long as the payment is made prior to the due date of the return.

To file your return online, go to www.cdtfa.ca.gov and select *File a Return*.

Making Your Payment

There are three easy and convenient payment options available.

ACH Debit Method

You can file and pay your return in one easy transaction. This is the preferred method for making a payment on a return.

- Enter your banking information (bank account number and bank routing number).
- Select a payment date. Payments may be held for any banking day you select up to the tax due date.

Credit Card Payment

You can pay by credit card through a third-party vendor:

- American Express®, Discover®, MasterCard®, and Visa® cards are accepted. A service fee of 2.3 percent of the transaction amount will be charged by the third-party vendor. This service fee is not paid to or retained by the CDTFA.

You must return to the online filing system after making your credit card payment to complete your filing.

Paper Check

- Choose this option to print out a payment voucher to mail in with your check.
- Print the confirmation page and payment voucher. This voucher is only available immediately after filing your return.
- Mail in your check with the payment voucher.

Payment Methods When Filing Paper Returns

- **Check or Money Order:** Make your check or money order payable to the California Department of Tax and Fee Administration and write your account number on the check or money order. Be sure to enclose your payment with your return.
- **Credit Card:** You can charge your tax return payment if you have an American Express®, Discover®, MasterCard®, or Visa® credit card. Other cards cannot be accepted.

To make credit card payments, visit the CDTFA website at www.cdtfa.ca.gov, or call 1-855-292-8931. The credit card processing vendor will charge a service fee of 2.3 percent of the amount charged. This service fee is not paid to or retained by the CDTFA.

Note: Never send cash payments through the mail.

If you are required by the CDTFA to pay taxes by Electronic Funds Transfer (EFT), you must continue to use that method. Additional information is available on the CDTFA website at www.cdtfa.ca.gov.

General Information

These instructions are provided to assist you with completing your California sales and use tax return. If you need assistance, please call the CDTFA Customer Service Center toll-free at 1-800-400-7115 (TTY:711). Customer service representatives can help you with general questions weekdays from 8:00 a.m. to 5:00 p.m. (Pacific time), except state holidays.

A request for an extension of time to file a tax return may be submitted online by logging in to your account with your Username and Password on our website at <https://onlineservices.cdtfa.ca.gov/> and select the *Relief Request* option.

Report all sales (in any manner) related to California business. You will deduct current period nontaxable transactions in Sections A through E on page 2.

Notes:

- Include all charges related to your sales, such as labor, service, and shipping and handling charges.
 - If you sold any business assets, such as fixtures and equipment, during the reporting period you must report the sale. If you are filing your final return and reporting the sale of the business assets, see the last bullet under “Line 2. Purchases Subject to Use Tax.”
 - Your total sales may include amounts for California sales or use taxes. If this is the case, be sure to deduct those tax amounts on line 9. If you do not, you will overpay tax.
-

Line 2. Purchases Subject to Use Tax

Enter your total purchases that are subject to use tax, as explained below.

Your purchases of merchandise, equipment, and other tangible personal property are subject to use tax and must be reported if you:

- Purchased the property from an out-of-state retailer who did not collect California use tax, or
- Purchased the property with a resale certificate or other exemption certificate, and
- Used the property in California for a purpose other than (1) resale or (2) demonstration, retention, or display while holding it for sale in the regular course of business.

You must also report your purchase of a vessel or aircraft if you (1) purchased it from an unlicensed retailer who did not charge tax on the transaction and (2) used the property for a purpose other than resale as described above.

Enter the amount you paid for the property.

Notes:

- If you paid another state’s sales or use tax on your purchase, do not include the tax payment as part of your purchase price. You may be eligible for a credit for the other state’s tax (see line 20c).
 - If you are reporting property purchased with a resale certificate, report the purchase price on the tax return for the reporting period during which you first used the property in California.
 - If you are reporting property purchased from an out-of-state retailer who did not charge you California tax, report the purchase price on the tax return for the reporting period during which you first used the property in California.
 - If you are closing out your seller’s permit and have sold fixtures and equipment, you should report the sales price and identify the sale as “fixtures and equipment” on line 2 of your final sales and use tax return. You must also report any inventory you intend to retain for your own use or for use as a gift, that was purchased for resale without the payment of tax or tax reimbursement, on line 2 of your final sales and use tax return and identify it as “retained inventory”.
 - Sales to other retailers for purposes of inventory to another retailer or to the purchaser of your business are not taxable, but should be reported as “sales resale” on line 4 of your return. Line 1. Bad Debt Losses on Taxable Sales

Enter bad debt losses, as described below.

If you have reported a taxable sale and have been unable to collect payment for the sale, you may take a deduction for the taxable sales portion of the bad debt.

Bad debts may take the form of:

- Checks that have been returned to you unpaid by the purchaser's bank and which you have determined to be uncollectible, or
- Amounts from charge or credit sales that you have determined to be uncollectible.

The bad debts must be charged off for income tax purposes or, if you are not required to file income tax returns, the bad debts must be charged off in accordance with generally accepted accounting principles.

Enter only the amount of the sale before tax. For example, if you sold merchandise for \$15 plus sales tax and were unable to collect any amount for the sale, you would claim \$15 as a deduction.

If you claim a bad debt deduction and later recover a payment, you must report the payment on the tax return filed for the period in which the recovery payment was made. ([Regulation 1642](#), *Bad Debts*.)

Enter only the amount of the purchase price before tax. For example, if the property was sold to you for \$15 plus tax, you would claim only \$15 as a deduction. ([Regulation 1701](#), *Tax-Paid Purchases Resold*.)

In order to recover only the partial state tax rate originally paid, you must make an adjustment to Section D, if any tax recovery deductions were reported in Section B where the original transaction was eligible for the partial state tax rate exemption listed in Section D.

If no adjustment is made, tax will be recovered at the current higher state tax rate and your return will be underpaid.

Section D, Line 1 – Transactions from the current filing period

- If you have current tax recoveries eligible for a partial state exemption on MVF to report, subtract those tax recoveries from your current partial state exemption on MVF transactions and enter the net amount in Section D, line 1.

In order to recover the additional state tax rate originally paid, you must make an adjustment to the diesel sales measure on line 13b, if any tax recovery deductions were reported in Section B where the original transaction was subjected to the additional state tax rate on diesel fuel.

If no adjustment is made, tax will be recovered at the current lower state tax rate and your return will be overpaid.

Line 13b – Transactions from the current filing period

- If you have current tax recoveries subjected to the additional state tax on diesel fuel to report, subtract those tax recoveries from your current diesel sales transactions and enter the net amount on line 13b.

Claim only the amount of the sale before tax. For example, if the returned merchandise had been sold for \$15 plus sales tax, you would claim only \$15 as a deduction. ([Regulation 1655, Returns, Defects and Replacements.](#))

Line 4. Cash Discounts on Taxable Sales

If you gave a cash discount to a customer on a taxable sale, enter the amount of the discount here. You can claim a deduction on this line only if you reported the full (undiscounted) selling price on line 1. Do not use this line if you reported the discounted selling price on line 1 of this return or a previous return. In addition, you must ensure that you do not collect from your customer more tax than the amount due on the discounted price. If you collect more than the amount due on the discounted price, you cannot claim this deduction. The farm equipment, machinery, and parts must be used primarily in producing and harvesting agricultural products. “Primarily” means 50 percent or more of the time.
- Property as defined in Chapter 1, Division 16 of the Vehicle Code used exclusively in agricultural operations. Such property under certain conditions includes lift carriers, tip-bed type trailers, trailers/semi-trailers having no bed, spray or fertilizer applicator rigs, nurse rigs or equipment auxiliaries, row dusters, trap wagons, fertilizer nurse tanks or trailers, cotton trailers, truck tractors and truck tractor/semi-trailer combinations. Vehicles primarily designed for the transportation of persons or property on a highway are generally not considered implements of husbandry and, therefore, do not qualify for this partial exemption.

The partial exemption also applies to a qualified person’s lease payments for qualified commercial timber harvesting equipment and machinery rentals.

Timber is considered to be trees of any species, excluding nursery stock, harvested for forest products. Some examples of these products include firewood, Christmas trees, biomass, poles, and pilings.

A complete listing of state-designated fairs is available on our website at

<https://www.cdtfa.ca.gov/taxes-and-fees/state-fairgrounds-list.htm>.
