## 2019 Electrical Energy Surcharge Rate

Effective January 1 through December 31, 2019, the electrical energy resources surcharge rate will increase from twenty-nine hundredths mill (\$.00029) to three-tenths mill (\$.0003) per kilowatt-hour, according to the California Energy Commission (CEC).

The CEC determines the electrical energy surcharge rate each November for the following calendar year. The electrical energy surcharge is imposed upon electrical energy consumed in California that is purchased from an electrical utility.
