### GENERAL INFORMATION

Suppliers of diesel fuel use this tax return to report the Diesel Fuel Tax due on (undyed) diesel fuel. The Diesel Fuel Tax is imposed on the following activities: removal of diesel fuel from a refinery or terminal rack; importation of diesel fuel outside the bulk transfer/terminal system; removal or sale of diesel fuel to an unlicensed person unless there was a prior taxable removal, entry, or sale; and removal or sale of blended diesel fuel outside the bulk transfer/terminal system. All transactions involving these activities are subject to tax unless the transaction meets one of the exemptions allowed in the Diesel Fuel Tax Law. Dyed diesel fuel is not subject to tax unless it is used to operate a motor vehicle on a highway; however, it is subject to all of the reporting requirements applicable to undyed diesel fuel.

**Note:** The diesel fuel tax rate may be adjusted every year effective July 1. CDTFA will announce the rate by the preceding May 1. Due to this annual rate adjustment, you may have transactions at several different rates.

If you are interested in filing your Supplier of Diesel Fuel Tax Return electronically with CDTFA, please contact our Customer Service Center at the number listed at the bottom of page (S4B).

### FILING REQUIREMENTS

Under Revenue and Taxation Code section [60201](#) each supplier shall prepare and file a tax return with CDTFA on which you report, on a monthly basis, activities such as importing and exporting above and below the terminal rack, blending, and refinery or terminal rack removals of diesel fuel in this state. You are also required to report jet fuel and kerosene imported, exported, and sold during the reporting period. The return and your payment, made payable to the **California Department of Tax and Fee Administration**, for the amount due must be submitted on or before the last day of the calendar month following the reporting period to which it relates. Paying your tax or filing your return after the due date may result in interest and penalty charges. You must file a return even if no tax is due for the reporting period. Your tax return is not considered valid unless it is signed and dated in the space provided at the bottom of the first page. **To prepare the return, you must first complete the applicable schedules and the Tax Computation Worksheet.**

### ACCOUNTABILITY

It is important that you report all transactions that you are required to report on this return and the supporting schedules. CDTFA will be comparing your total rack removals, as reported by terminals, against removals reported by you. Your imports of products will be compared to exports reported to CDTFA by other states. Failure to report fully may result in CDTFA contacting you to determine why your reports differ from reports submitted by third parties, such as the terminal operators.

### PREPARATION OF SCHEDULES

There are two types of supporting schedules included with every *Supplier of Diesel Fuel Tax Return*; a standard [CDTFA-810-FTG](#), *Receipt Schedule*, and a standard [CDTFA-810-FTF](#), *Disbursement Schedule*. **For detailed information regarding the use and preparation of these schedules, see [CDTFA-810-FTE](#), *Instructions for Preparing Motor Fuels Schedules*, available on our website at [www.cdtfa.ca.gov/formspubs/cdtfa810fte.pdf](http://www.cdtfa.ca.gov/formspubs/cdtfa810fte.pdf).**
