HAZARDOUS WASTE GENERATOR FEE RETURN - FEDERAL INSTRUCTIONS

Payments: To make your payment online, go to our website at www.cdtfa.ca.gov and select "Make a Payment." You can also pay by credit card on our website, or by calling 1-855-292-8931. If paying by check or money order, be sure to include your account number.

GENERAL

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition, for example, recycling or disposal.

FEDERAL LIABILITY FOR THE FEE

According to 42 U.S.C. section 6961, federal departments, instrumentalities, and agencies are subject to state regulation concerning disposal or management of hazardous waste including the payment of the Hazardous Waste Generator Fee. However, the federal government is not liable for interest imposed by the California Revenue and Taxation Code.

EXEMPTIONS FROM THE GENERATOR FEE

- 1) Used oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control (DTSC). "Motor vehicle" includes locomotives, vessels, and self-propelled, off-road equipment, whether or not the equipment moves or is permitted to move on public highways.
- 2) Waste that is generated, recycled, and used onsite and not transferred offsite at any time.
- 3) Aqueous waste treated in a treatment unit operating, or which subsequently operates, under a permit by rule, conditional authorization, or conditional exemption. However, hazardous waste generated by the treatment unit is subject to the generator fee.

FEDERAL FILING REQUIREMENTS

Every federal entity that produces hazardous waste must file this return. Fee returns and payments that are mailed must be postmarked on or before the due date shown on the return. If the due date falls on a Saturday, Sunday or legal holiday, returns postmarked on the next business day are considered timely. This return must be filed even if you are not liable for the fee. Facility operators who pay the Facility Fee are not subject to the Generator Fee for the facility site.

FILING REQUIREMENTS

Under section 43152.7 of the Hazardous Substances Tax Law, every site that generates hazardous waste is required to file a return with a remittance payable to the California Department of Tax and Fee Administration. Under section 43155 of the Hazardous Substances Tax Law, late payment will result in a 10 percent (0.10) penalty and interest at an adjusted annual rate established under section 6591.5 of the Revenue and Taxation Code.

Please select the appropriate fee category in column A on the front of the return for each site where hazardous waste was generated in this state. Be sure to include non-manifested **Treated Wood Waste** in the total tonnage. Multiply the number of generating sites in column B by the amount of fees in column C and enter the amount of fees due in column D.

If you are reporting for more than one site, please use the enclosed Schedule G or provide the site address, EPA number, and appropriate fee category for each site on an attachment.

UNIFORM HAZARDOUS WASTE MANIFEST

To determine the appropriate category for reporting on the front of the return, calculate the tonnage of all waste generated using the information obtained from your completed Uniform Hazardous Waste Manifest. Total quantity and weight are indicated in boxes 11 and 12 of the Uniform Hazardous Waste Manifest. This information should be supported by weight tickets from the disposal of the waste generated.

If weight tickets are not available, you may convert the unit of measurement to tons. Conversion factors for certain waste types are available on the Department of Toxic Substances Control Annual Fee Summary. The current year summary is available at https://www.dtsc.ca.gov/IDManifest/Fee_Summary.cfm.

Note: The use of conversion factors provides a general guideline. Due to the characteristics of your waste, you should always determine the tonnage using information contained on actual weight tickets.

PREPAYMENT CREDIT (LINE 11)

Some accounts were required to file a prepayment by August 31. If you paid a prepayment, enter on line 11 the amount of fee paid. If a penalty was paid, **do not** include the amount in the credit. If, after claiming the prepayment, the total amount due and payable on line 15 is a credit, include a letter with your return requesting the amount be refunded to you.

HAZARDOUS WASTE GENERATOR FEE RETURN - FEDERAL INSTRUCTIONS

SUMMARY OF GENERATING SITES (SCHEDULE G)

A Schedule G is enclosed for taxpayers who are currently reporting more than one generating site under a single California Department of Tax and Fee Administration tax account number. To complete Schedule G, check the appropriate box for the category which reflects the total tonnage of hazardous waste generated at each site. Be sure to include non-manifested **Treated Wood Waste** in the total tonnage. Add any generating sites which are not included on the schedule by EPA number and site address. Total the number of sites by category and bring this amount forward to column B on the Hazardous Waste Generator Fee Return. Multiply the number of sites per category by the fee for that category. Total the fees due in column D.

If you did not receive a Schedule G and have more than one generating site to report, please make a supplemental attachment listing the generating site address, EPA number, and generating category for each site.

If you need additional information, please contact the California Department of Tax and Fee Administration, Return Processing Branch, P.O. Box 942879, Sacramento, CA 94279-0088.
