## INSTRUCTIONS - MANUFACTURER/IMPORTER REPORT OF NONTAXABLE SALES OF TOBACCO PRODUCTS

### GENERAL

The California Department of Tax and Fee Administration (CDTFA) is responsible for administering the Cigarette and Tobacco Products Tax Law, including the distribution of untaxed tobacco products. Pursuant to Business and Professions Code section 22979.24, every manufacturer or importer is required to file a monthly report to the CDTFA in a manner specified by the CDTFA. Failure to comply with the requirements may result in suspension or revocation of a license pursuant to the provisions set forth in section 30148 of the Revenue and Taxation Code. You must file this report to the CDTFA with your monthly return (CDTFA-501-TIM) on or before the 25th day of the month following the reporting period.

### DEFINITIONS

*Tobacco Products* include, but are not limited to, a product containing, made, or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including, but not limited to, cigars, little cigars, chewing tobacco, pipe tobacco, shisha, or snuff, but does not include cigarettes. Tobacco products also include electronic cigarettes [Revenue and Taxation Code section 30121(b)].

*Electronic Cigarettes* mean any device or delivery system sold in combination with nicotine which can be used to deliver to a person nicotine in aerosolized or vaporized form, including, but not limited to, an eCigarette, eCigar, ePipe, vape pen, or eHookah. Electronic cigarettes include any component, part, or accessory of such a device that is used during the operation of the device when sold in combination with nicotine.

*Wholesale Cost* means the cost of tobacco products and samples, including the dollar value of samples, and the dollar value of any manufacturer's discounts or trade allowances (Revenue and Taxation Code sections 30017, 30123, and 30131.2).

For example, the wholesale cost of any manufactured tobacco product that is distributed in a taxable manner shall include all manufacturing costs, the cost of raw material, including waste materials not incorporated into the final product, the cost of labor, any direct and indirect overhead costs, and any Federal excise and/or U.S. Customs taxes paid.

In addition to the price paid for the tobacco product, the wholesale cost of any tobacco product that is imported into this state directly from outside the country shall include any Federal excise or U.S. Customs taxes paid.

Cigarette and Tobacco Products Tax [Regulation 4076](#), *Wholesale Cost of Tobacco Products*, provides examples of calculating or estimating wholesale cost.

*Importer* means any purchaser for resale in the United States of cigarettes or tobacco products manufactured outside of the United States for the purpose of making a first sale or distribution within the United States (Revenue and Taxation Code section 30019).

*Manufacturer* means a manufacturer of cigarettes or tobacco products sold in this state [Business and Professions Code section 22971(l)].
